

BHANUPRAKASH P

Backend Developer

Bapatla Engineering College | bp136897@gmail.com | www.github.com/bhanuprakash1312

SUMMARY

Detail-oriented fresher engineer with practical project experience, strong problem-solving skills, and a hands-on mindset. Experienced in developing and optimizing systems through academic and real-world projects, with a focus on delivering reliable and efficient solutions.

PROJECTS

AI Based Student Dropout Prediction

- Built an end-to-end system to predict student dropout risk using machine learning based on attendance, academic performance, and fee status.
- Developed a FastAPI backend to serve predictions and manage authentication with secure login and JWT.
- Implemented data preprocessing, feature engineering, and model integration using **Python, NumPy, and joblib**.
- Designed an interactive **React dashboard** with filters, role-based access (Admin/Super Admin), and real-time risk visualization.

Tech Stack: Python, FastAPI, Machine Learning, React, PostgreSQL, SQLAlchemy, JWT

Live Demo: <https://aidp-ochre.vercel.app>

Demo Access (for evaluation):

Username:bp136897@gmail.com

password:bhanu1312

SKILLS

Python FastAPI REST API Development JWT Authentication PostgreSQL

SQLAlchemy Basic Machine Learning Integration Git & GitHub Backend Deployment (Render)
